

RE-T6703

Double Sided Repulpable Tape for Manual Splicing of Tissue Paper

RE-T6703 is a 4.1 mils repulpable light blue tape carrier, coated on both sides with resin adhesive. White stiff bi-siliconized repulpable easy release liner.

Application

- Recommended for permanent overlap manual splices of tissue, cigarette paper and very light uncoated papers on reelers and winders.

Storage & Usage Conditions

Store tape in its original packaging away from direct sunlight and in a cool and dry area. For optimum performance, tape should be used within 12 months of date of shipment. Tape works best when applied to a surface that is clean, dry and free of grease, oil or other contaminants.
